

To whom it may concern;

I have had Nancy Smith as an auditor for 1- $\frac{1}{2}$  years and I can't praise her enough. I have great respect for her and the job she does. Nancy goes the extra mile in the job and if there is anything that needs to be recounted she doesn't have a problem in doing that. Nancy not only has to deal with the supervisors but with the managers of all the Turenorth stores that she audits. Nancy is always willing to make everyone happy and still do her job as a professional.

Sincerely,

  
Nancy J. Meyer
