Patrick Mignogno – Vice President

Dear Pat,

Recently I had a request for a special report to be generated for our Item Level locations. You immediately went to work with your Technology group and were able to capture the data needed and create that report. I appreciate the quick response and Quantum's ability to apply a technology solution to our needs. This is just one example of how you continue to work with me and Gate Petroleum in not only meeting our needs but in adding value to our audit program.

Your audit crews have provided the expertise and support needed as we have grown our business and modified our systems to meet the needs of our customers. Your auditors are highly skilled, professional, and provide us with the information needed to help us operate our locations effectively.

At Gate Petroleum, we value our long term partnership with Quantum Services. I look forward to continuing our relationship and working with you and your people.

Sincerely,
